STANDARD SPECIFICATIONS:-

1. **Fresh Pineapples No. US 2: 1992**

   **Scope**
   
   This standard covers requirements for fresh pineapples (*Ananas comosus L*). This standard provides guidance on the quality of pineapples from the harvesting stage and packaging to marketing. It also specifies provisions concerning quality, sizing tolerances and presentation of the fruit to the market. The standard does not include pineapples for industrial processing.

2. **Fresh Avocados No. US 3: 1992**

   **Scope**
   
   This standard specifies requirements for fresh avocados (*Persea americana*) fruits to be supplied to the consumer. This does not include avocados for industrial processing.

   **Scope**
   
   This standard applies to Infant Formula in liquid or powdered form intended for use, where necessary, as a substitute for human milk in meeting the normal nutritional requirements of infants. It also provides a standard for formulae intended for infants with special nutritional requirements, except for certain provisions which must be modified to meet those special requirements.

4. **Canned Baby Foods No. US 5 CS 73: 1993**

   **Scope**
   
   Baby Foods are foods intended primarily for use during the normal infant's weaning period and also for the progressive adaptation of infants and children to ordinary food. They may be either in ready-to-eat form or in dry form requiring reconstruction with water only. They do not include products covered by the Uganda standard for Infant Formula or by the Uganda Standard for Processed Cereal-Based Foods for Infants and Children.

   **Scope**
   
   This standard applies exclusively to dried milk products as defined, having a fat content of not more than 40% m/m.
Scope
This standard specifies requirements for raw sugar produced from sugarcane.

Scope
This standard applies to whole maize (corn) meal, for human consumption prepared from kernels of common maize, *Zea mays L.*. This standard does not apply to degemer maize (corn) meal, enriched maize (corn) meal, maize (corn) flours, maize (corn) grits, quick grits, hominy grits, self-rising maize and other maize (corn) based ready-to-eat cereals, maize (corn) flaking grits, and alkaline treated maize (corn) products.

This standard does not apply to maize meals for use as a brewing adjunct, to maize meals used for manufacturing of starch and any industrial use, nor to maize meal for use as an animal feed.

Scope
This standard applies to degermed maize (corn) meal and to degermed maize (corn) grits for human consumption milled from kernels of common maize, *Zea mays L.*. This standard does not apply to whole maize (corn) meal, maize (corn) flours, quick grits, hominy grits, self-rising maize (corn) meals, enriched maize (corn) meals, enriched maize (corn) grits, bolted maize (corn) meals, maize (corn) flakes, and alkaline treated maize (corn) products.

This standard does not apply to maize (corn) meals for use as a brewing adjunct, to maize (corn) meals used for manufacturing of starch and any industrial use, nor to maize (corn) meal for use as an animal feed.

Scope
This standard applies to the whole, shelled or split pulses which are intended for direct human consumption. Pulses are dry seed of leguminous plants which are distinguished from leguminous oil seeds by their low fat content. The standard does not apply to pulses intended for factory grading and packaging, industrial processing, or to those pulses intended for use in the feeding of animals. It does not apply to fragmented pulses when sold as such, or to other legumes for which separate standards may be elaborated.

Scope
This standard applies to sorghum grains as for direct human consumption; which is ready for its intended use as human food, presented in packaged form or sold loose from the package directly to the consumer. It does not apply to other products derived from sorghum grains.

Scope
This standard applies to maize (corn) grain for direct human consumption, i.e. ready for its intended use as human food, presented in packaged form or sold loose from the package direct to the consumer. This standard specifies requirements for whole grain shelled dent maize, *Zea mays indentata L.*, and/or shelled flint maize, *Zea mays indurata L.*, or thier hybrids. It does not apply to processed maize.

Scope
This standard applies to all honey produced by honey bees and covers all styles of honey presentation which are offered for direct consumption. The Standard also covers honey which is packed in non-retail (bulk) containers and is intended for repacking into retail packs.

Description
Concentrated Pineapple Juice with Preservatives, for manufacturing is the unfermented product obtained from the raw material through the process of concentration and preserved exclusively by, or with the assistance of, chemical preservatives. It is not intended for direct consumption for the manufacture of fruit juices or nectars intended for direct consumption.

Scope
Butter is a fatty product exclusively derived from milk. Whey butter is a fatty product derived from whey containing no other fat than milkfat.

Scope
Yoghurt is a coagulated milk product obtained by lactic acid fermentation through the action of *Lactobacillus bulgaricus* and *Streptococcus thermophilus* from milk and milk products and with or without additional ingredients. The microorganisms in the final product must be viable and abundant. Sweetened yoghurt is yoghurt to which one or more sugars only have been added. Sugar means any carbohydrate sweetening matter.

Scope
This standard applies to flavoured yoghurt and the products heat-treated after fermentation.

Scope
Unfermented but fermentable juice intended for direct consumption, obtained by a mechanical process from the endocarp of sound, ripe lemons (*Citrus limon Burm.F.*) preserved exclusively by
physical means (excluding ionizing radiation). The juice may have been concentrated and later reconstituted with water suitable for the purpose of maintaining the essential composition and quality factors of the juice.

Scope

This standard applies to wheat flour for human consumption prepared from common wheat, *Triticum aestivum* L., or club wheat, *Triticum compactum* Host., or mixtures thereof, which is prepackaged ready for sale to the consumer or destined for use in other food products.

It does not apply:
- to any product prepared from durum wheat, *Triticum durum* Desf., singly or in combination with other wheat;
- to whole meal, whole-wheat flour or semolina (farina) milled from common wheat, *Triticum aestivum* L., or club wheat, *Triticum Compactum* Host., or mixtures thereof;
- to wheat flour destined for use as a brewing adjunct or for the manufacture of starch and/or gluten;
- to wheat flour for non-food industrial use;
- flours whose protein content have been reduced or which have been submitted after the milling process to a special treatment other than drying, bleaching and/or to which have been added other ingredients than those mentioned under sections 3.4, 4.1 and 4.2.

Scope

Unfermented but fermentable juice, intended for direct consumption, obtained by a mechanical process, which may include centrifuging but not filtering, from the fresh or parts thereof, with or without core material, of sound, ripe pineapples (*Ananas comosus L. Merrill = Ananas sativus L. Lindi*) preserved exclusively by physical means (exclusive of ionizing radiation). The juice may have been concentrated and later reconstituted with water suitable for the purpose of maintaining the essential composition and quality factors of the juice.

Scope

Concentrated Pineapple Juice (Pineapple Juice Concentrate) is the unfermented product, which is capable of fermentation after reconstitution, obtained from the raw material through the process of concentration and preserved exclusively by physical means (exclusive ionizing radiation).

Scope

This standard specifies requirements, methods of sampling and test for margarine. It does not apply to any product, which is not labelled in any manner which implies, either directly or indirectly, that the product is margarine.

Scope

This standard applies to edible ices ready for consumption and to ice mixes in liquid or powder form. It also applies to the edible ice part of foods containing edible ices.

Scope

This Uganda standard specifies requirements for instant tea in solid form. It does not apply to:

(a) instant tea containing non-tea carbohydrates as bulking/filling agents (normally referred to as "filled instant tea");

(b) preparations of instant tea containing added aromatic material unless these are derived exclusively from the plant *Camellia sinensis*;

(c) decaffeinated instant tea.

Scope

This standard applies to products designated as "Luncheon Meat" which have been packed in any suitable packaging material.

Scope

This standard applies to canned beef products designated as "Corned Beef" and packed in hermetically sealed containers which have been heat treated after sealing to such an extent that the product is shelf-stable.

This standard does not apply to canned corned beef products with compositional characteristics different from those specified in the standard and which are designated with a qualifying statement to this effect in connection with the term "Corned Beef" in such a way that it describes the true nature of the product, that it does not mislead the consumer and that it does not lead to confusion with products covered by the standard.

Scope

This Uganda Standard specifies requirements and methods of test for vanilla belonging to the species Vanilla fragrans, Vanilla planifolia and for certain forms of vanilla obtained from seeds, which may be hybrids of Vanilla fragrans.

This vanilla is known commercially under various names such as Bourbon vanilla, Mexican vanilla, Indonesia vanilla or Seychelles vanilla.

Scope

This standard specifies the quality requirements for treated, piped drinking water.

Scope

This standard prescribes the requirements, methods of sampling and test for flexible polyurethane foam for use in mattresses, furniture and other similar uses.

Scope

This standard specifies the requirements and methods of sampling and test for food grade salt.

Scope

This standard specifies the requirements for materials, profile and dimensions of galvanized plain and corrugated iron sheets for general use.

Scope

This specification covers performance requirements and methods of test of flexible non-exposed glass bead lens and microprismatic retro-reflective sheeting designed for use on traffic control signs, chevrons or delineators, barricades and other devices.

Persons who are interested in obtaining or consulting the full text of the above standards may come to:

The Executive Director,
Uganda National Bureau of Standards,
Plot 3/5 1st Street Industrial Area,
Kampala.
